## #MY LEARNING MY WAY

### Eminent Faculties

Engage with experts using interactive, technology-enabled virtual classrooms

### Anytime Learning

Gain from recorded lectures, programme handouts, and recorded lab content

### Industry Endorsed

Co-Developed Co-Designed Co-Delivered by Industry Experts

### Experiential learning

It allows learners to apply concepts learnt in classroom in real work situations

### Virtual Labs

Access Virtual Lab to learn and apply fundamental and industrial concepts

### 24by7 Support

On-demand real-time technical and remote support to help learners

### Continuous Assessment

Progress is evaluated throughout the programme

### Self Learning

Support through Comprehensive Self Learning Materials

## Student Experience

### Interactive and Engaging E-classes

- Highly interactive and engaging sessions by distinguished professors
- Ask questions, and involve with professors and peers in e-classroom
- Explore experiential learning that allows learners to apply concepts learnt in classroom in simulated and real work situations

### Flexible Learning at Ease

- Learners can access engaging learning materials at their own pace and convenience which includes recorded lectures from faculty members, course handouts and recorded lab content.
- Access study material and on-demand videos at any time, at your convenience
- Regularly test your knowledge with practice assignments and assessments

### Online Mentoring

- Navigate the virtual learning journey with programme mentors
- Exchange ideas and opinions with professors and counsellors
- Get help and support at any point, for any issue

### Industry Insights and Exposure

- Insights from industry experts through Industry Expert Connect, Expert Speak, and Online webinar series
- Learn the fundamentals and how to apply them to real-world environments
- Attend industry talks and events and broaden your worldview.
